## **Forum Communications Showcases Consortium II and Alert Plus Products at Key Industry Expositions - LandWarNet, AFITC, and ARFF Working Group**

**Forum Communications Showcases Consortium II JITC Certified Conference Systems and Alert Plus Primary Crash Networks at LandWarNet, the Air Force Information Technology Conference and the Air Rescue and Fire Fighters Conference.**

**Richardson, Texas - September 3, 2009** - Forum Communications International today announced its successful participation and sponsorship in three key industry tradeshows in the last weeks of August; LandWarNet, the Air Force Information Technology Conference, and the Air Rescue and Fire Fighters Working Group Conference.

The JITC certified Consortium II conference server and the Alert Plus Primary and Secondary Crash Alarm Systems were showcased. The Consortium II provides key communications capabilities for government and military conferencing and collaboration applications and the Alert Plus provides Airfield emergency communications for aircraft rescue and fire fighting and emergency first response teams.

The three conferences address key industry segments served by Forum; the Army, Air Force, Air National Guard and Commercial Airports across the US and the globe. "These key segments represent a significant part of Forum's installed customer base, and a great opportunity for new customers within the DOD who require secure communications platforms with proven reliability, usability, and performance" said Noel H. Schnell, Vice President, Forum Communications.

### **About Forum Communications**

Forum Communications has been at the forefront in Conference Server design with an 18 Year Commitment to design quality and customer satisfaction, with over 100,000 ports in service for Business, Federal, State and Local Governments, and DOD installations around the Globe.
