For Immediate Release

Forum Communications Showcases Consortium II and Alert II Products at LandWarNet 2010 in Tampa, Florida.

Forum Communications Showcases Consortium II JITC Certified Conference Systems and Alert II Primary Crash Networks at LandWarNet in Tampa, Florida.

Richardson, Texas - August 9, 2010 - Forum Communications International today announced its successful participation at LandWarNet 2010 Joint War fighter conference in Tampa, Florida, and enjoyed overwhelming responses from our existing and potential military audience.

The LandWarNet conference was sponsored by AFCEA, a non-profit membership association serving the military, government, industry, and academia as an ethical forum for advancing professional knowledge and relationships in the fields of communications, information technology, intelligence, and global security. Forum has been a corporate Member/Sponsor of AFCEA for many years.

This year's Conference focused on a variety of critical topics, such as network transformation and integrating future network systems, information assurance, enabling joint expeditionary operations and strengthening cyberspace operations. This year's conference also was marked by a major milestone for the United States Signal Corps: 150 years of extraordinary service to the Army and the nation. Forum was honored to help celebrate the men and women of the Signal Regiment.

The JITC certified Consortium II conference server and the Alert II Primary and Secondary Crash Alarm Systems were showcased. The Consortium II provides key communications capabilities for government and military conferencing and collaboration applications and the Alert II provides Airfield emergency communications for aircraft rescue and fire fighting and emergency first response teams.
